APEX DENTAL RECOVERY

Services & Pricing

Clear pricing • Dental insurance expertise • One specialist who works your claims

No setup fee | Month to month | BAA signed before we see any patient data | Priced below the big national billing companies

Two simple ways to work with us: hand us the insurance billing, or test us on the claims nobody else could collect.

OPTION 1 MONTHLY INSURANCE BILLING & A/R

percent of insurance collections

Monthly insurance collections	Hybrid A/R Support	Full-Service Billing
First $100,000 collected	**2.85%**	**3.2%**
Collections from $100,000 to $150,000	**2.6%**	**2.95%**
Collections above $150,000	**2.35%**	**2.7%**
Minimum monthly fee	**$1,200**	**$1,350**

Hybrid includes claims submission, insurance payment posting and EOB reconciliation, A/R follow-up at 30/60/90 days, and a monthly report. **Full-Service** is everything in Hybrid plus insurance verification — schedule review, estimated copays, and a full breakdown of benefits for every new patient — provider credentialing and medical-dental cross-coding. The lower rate applies only to the dollars in that band. **For a practice collecting $50,000–$150,000 a month in insurance, Hybrid runs about 17–19% and Full-Service about 6–9% below the published prices of the largest national dental billing companies.** Benefits and patient portions are estimates from the carrier, not a guarantee of payment.

OPTION 2 CLAIM RECOVERY ONLY

no recovery, no fee

NOTE **Claim recovery is included with a Hybrid or Full-Service Billing contract at the normal monthly pricing — no extra fee.**

20%

Paid only on what we collect from the list you give us.

- Denied claims — even ones denied multiple times
- Claims over 90 days old

Claims we can't collect cost you $0. We charge only on new money we get paid — never on what you had already collected. Insurance pays your office directly.

DON'T SEE A SERVICE YOU NEED? Just ask. I am happy to discuss your practice's needs and provide you with a price.
